

Comprehensive Exam on Windows Batch (.bat) Files

[Previous sections remain the same until the debugging section...]

1 Debugging (20 points)

The following batch file has several errors. Identify and fix them:

```
1 @echo off
2 set count=0
3 for %%f in (*.doc) do (
4     echo Processing %%f
5     set /a count+=1
6 )
7 echo Total files processed: %count%
8 if %count% gtr 5 (
9     echo More than five files found
10 ) else (
11     echo Five or fewer files found
12 )
```

[Rest of the document remains the same...]
